

Surgery & Anesthesia Technicians

Palm Beach Veterinary Specialists is seeking a credentialed veterinary technician to work in our surgery and anesthesia department.

We provide 24-hour emergency and specialty care in surgery, internal medicine, oncology, critical care, neurology, ophthalmology, and neurology.

The hospital is expanding our surgery department and seeking two additional technicians to complement our team of board-certified surgeons, surgical/anesthesia technicians, and surgical assistants.

Ideal candidates will not only possess sound technical skills and anesthesia knowledge, but also strong communication skills, an unparalleled work ethic, and the ability to thrive in a fast paced, high volume practice.

We reside within a new, award winning (2015 Hospital of the Year) 34,000 sq. ft. physical plant (operating 24/7/365) that boasts an in-house national reference laboratory and blood bank, MRI, CT, I131, Endoscopy, Ultrasound, ECG, electro diagnostics, a Linear Accelerator, and so much more! Our advanced-design physical plant and service capability brings a level of sophistication to our practice that is unmatched in south Florida.

West Palm Beach is located on the southeast coast of Florida. The area is blessed with year-round pleasant weather and beautiful white sandy beaches. **Come live where people vacation!** Urban, suburban and rural living all can be enjoyed within close driving distance to the hospital.

If you would like to work in an environment within which you can practice to the highest level of your skills, supported by a GREAT team please contact Cheryl Rizzo (cheryl@palmbeachvetspecialists.com) via e-mail or call 561-434-5700. She will be happy to tell you more about our practice and our team.
