

VETERINARY
MEDICAL CENTER
UNIVERSITY OF MINNESOTA

WE ARE
HIRING

SENIOR VET TECHS,
VET TECHS, AND
ASSISTANT VET TECHS

vmcjobs@umn.edu

Advance your skills while earning excellent medical and dental coverage,
generous retirement savings plans, and tuition reimbursement.

Now Hiring Anesthesia Veterinary Technicians!

Bring your passion for anesthesia to the most advanced care center for large and small animals in Minnesota! We are hiring three experienced, motivated, and independent technicians to join our team. With our state-of-the-art technology, you can apply your advanced technical skills and knowledge to improve a patient's quality of life.

As an anesthesia veterinary technician, you will anesthetize, monitor, and treat anesthesia patients under the supervision of board-certified anesthesiologists and anesthesiology residents. You'll assist clinicians from many other specialties and prepare patients for a variety of veterinary medical procedures. . You will be expected to answer questions and explain or demonstrate procedures and equipment for clients, residents, interns, senior veterinary students, and technician students as well as assist with teaching labs.

We value growth opportunities and are committed to providing paid training, tuition reimbursement for continuing education, access to national conferences, and preparation for specialty exams. We support the advancement of your career at the Veterinary Medical Center (VMC)!

Qualifications

All required qualifications must be documented on application materials.

Graduate of Veterinary Technician or equivalent program, certified as MVMA/MAVT technician or must be eligible to transfer certification or licensure to Minnesota. At least two years of veterinary technical and anesthesia experience. Ability to act independently with little or no supervision.
