

Burwash Equine Services is seeking another full time Registered Veterinary Technician to join our growing team! Only 20 minutes west of Calgary, Alberta. Our hospital is equipped with the latest equipment and has a team that will help support and mentor you when needed. If you want to work in a fun, rewarding job, apply now! The right personality is key, the skills can be taught!

#### **About Us**

- Busy, progressive exclusively equine practice with 5 full-time veterinarians, 2 intern veterinarians and a full complement of support staff
- Collaborative environment where the entire team works together as a whole to optimize patient care and clinical outcome
- Member of the Distributed Veterinary Learning Community at the UCVM with 4<sup>th</sup> year veterinary practicum students; often host RVT practicum students and veterinary extern students from all over the world
- Wide variety of cases ranging from medicine to surgery to lameness to reproduction, with a good mix of general equine work as well – no two days are ever the same!
- In clinic and ambulatory work (approx. 50:50 split)
- Full surgical capabilities, including colic, arthroscopy, laparoscopy, foals, etc.
- Rapidly growing caseload of intensive care patients, isolation patients, and surgical cases
- Full complement of in-house blood analyzers
- Visit our website at [www.burwashequine.ca](http://www.burwashequine.ca) to see more about the practice and the services offered

#### **About the Position**

- Must be an RVT, AHT, LVT, or CVT who is eligible for licensure with the ABVMA
- Experience with horses is required
- Experience with equine anesthesia is an asset, interest in equine anesthesia is encouraged – we do have a fantastic RVT and a DVM on staff that can train you in anesthesia
- Wage dependent on experience
- Shared after hours on call duties with compensation
- Two weeks paid vacation
- Health/dental/life insurance benefits, uniforms provided, paid ABVTA/ABVMA dues

#### **Expected Duties**

- General RVT duties: assisting with patient care and treatments (including ICU monitoring and care), handling patients and assisting with lameness examinations and pre-purchase exams, preparation for procedures such as joint injections, handling mares +/- stallions and helping with collections, artificial insemination and uterine lavages, helping with embryo transfers, etc.
- Running and monitoring anesthesia for surgery under GA; assisting with arthroscopies; running and monitoring standing sedation
- Assisting with inventory control and ordering drugs and supplies
- Taking digital radiographs
- Lab work (In-house and facilitating send-out lab work)
- Assist with housekeeping in clinic and cleaning up after appointments
- Cleaning and sterilization of equipment and surgical supplies
